JOINING INSTRUCTIONS

A. INTRODUCTION

Recognising the hidden potential within orphaned children, children living in vulnerable circumstances, and children who have parents, Jehovah Jireh Learning Center (JJLC) considers it important to prepare all children equally by providing education as a foundation for progression from pre-primary to primary school, secondary school and, ultimately, university.

When this potential is nurtured through good moral values, quality education and religious education, it can become a blessing to the community, both within and outside the country.

At Jehovah Jireh Learning Center (JJLC), we are committed to educating your child to a high standard so that he or she can become a valuable member of society.

Remember: It is easier to transplant a young tree than a fully grown one. When your child studies at this school, good values can be instilled early and will help the child adapt wherever he or she may go.

B. TYPE OF SCHOOL

JJLC is a private school with a broad vision of supporting the community in various ways, including providing pre-primary (nursery) and primary education to children from the age of three (3). Education is provided in an environment that promotes good moral values and is founded on Christian principles.

The school admits both girls and boys without discrimination.

Our school is an English-medium school; English is used as the language of instruction and communication. In addition, Chinese and French are taught from Standard One.
